

We are a Jandakot Airport based company with 25 years experience in the coatings industry. We are Australian owned and operated with an experienced team of local personnel. We specialise in all aspects of aircraft painting and coatings.

We provide a specialised painting and coating service to the Aviation Industry, covering all aspects from surface preparation, paint stripping, corrosion control, fibreglass repairs through to paint coatings and protection.

Our facility is 650 square metres with full extraction throughout and a separate spray booth facility.

We strive to exceed our customers' expectations at all times and have an excellent track record resulting in repeat business.
